

BLUENEWABLES INTEGRATED POLICY

BLUENEWABLES, whose scope is the consultancy, design, development, implementation, and operation of renewable energy solutions in offshore environments, is committed to offering services of the highest quality standards with a sustainable, responsible, and continuously improving approach. Our activity is based on the principles of the international standards ISO 9001:2015 and ISO 14001:2015, adopting an Integrated Management System that guides our decisions, operations, and relationships with stakeholders. Based on this Policy, we commit to:

1. Fully satisfy our clients' requirements, providing innovative, safe, and technically sound solutions tailored to their needs.
2. Comply with all applicable legal and regulatory requirements, as well as other commitments the organization subscribes to regarding quality and the environment.
3. Protect the environment by preventing pollution and responsibly managing the environmental aspects of our activities.
4. Reduce our environmental impacts by promoting energy efficiency, the responsible use of natural resources, and the minimization of waste and emissions.
5. Promote the continuous improvement of the performance of the integrated management system, ensuring the effectiveness and efficiency of our processes.
6. Identify and manage risks and opportunities that may affect the achievement of the expected results of the system, in terms of both quality and the environment.
7. Develop technical and environmental competencies through continuous training and staff awareness, fostering a culture based on quality, prevention, and sustainability.
8. Engage our collaborators and suppliers, promoting responsible practices aligned with our values of quality and environmental respect.
9. Apply sustainability criteria in all project phases, from design to operation, seeking solutions that actively contribute to the energy transition and the protection of the environment.
10. Periodically review this policy to ensure its suitability to the organizational context, business strategy, and the needs of our stakeholders.

With this integrated policy, which contains our statement of principles and commitments to the quality and environmental management system, and which we make publicly available to stakeholders through its publication on our website and to anyone who requests it, and through the consequent achievement of the objectives set herein, we aim to achieve continuous improvement in the delivery of our services. This policy was approved by the management of BLUENEWABLES in S/C de Tenerife on April 21, 2025.
